TECHNICAL SKILLS

Languages: Javascript, Ruby, HTML, CSS
Databases: PostgreSQL, MongoDB
Software/Tools: React, Redux, Nextjs, Rails, Node, Git, Graphql, Material-UI, Tailwind, Jira

PERSONAL PROJECTS

(Personal) Movies-Scene: www.*movies-scene.com* | github.com/benedictbutton/movie-app
(Launch Academy) Cricket: *crickety.herokuapp.com* | github.com/benedictbutton/cricket

PROFESSIONAL EXPERIENCE

Cantina Consulting (*https://cantina.co*)   Boston, MA
Software Engineer   *February 2020 – September 2022*

- ❖ Worked across multiple projects, from Fortune 500's to startups, necessitating my ramping up quickly on various technical stacks and collaborating across multiple engineering teams
- ❖ Provided devOps for the N.A. website of a global appliance distributor; built a React application to generate database scripts based on form inputs, enhancing my workflow accuracy and productivity
- ❖ Implemented new web application features for a startup, leveraging React custom hooks for code reuse and throttling and debouncing for performance optimizations
- ❖ Retained for technical support on an as-needed basis for two clients, providing weekly status reports to the Cantina executive team and montly updates to the stakeholders
- ❖ Tasked with refactoring key components of a React application; improved unidirectional data flow with component composition and by extending React-Table for functional handling of data
- ❖ Built React components for a major client's website redesign, utilizing CSS modules for targeted styling and pair-programming with designers for QA
- ❖ Performed an accessibility audit of a client's website for WGAC 2.1 compliance; drafted a report with best practices, informational resources, and technical details for targeted fixes
- ❖ One of three engineers tasked with implementation of a GraphQl headless CMS; relied on React for an interactive UI and on Nextjs for static generation of pages

Resilient Coders   Boston, MA
Volunteer   *July 2019 – July 2020*

- ❖ Assisted students with understanding programming concepts and best practices, with completing assigned coding exercises, and with working on their individual projects

Symetra Life Insurance   Waltham, MA
Document Review; Contract   *November 2017 – August 2018*

- ❖ Coordinated document procurement between medical underwriters, group underwriters, case managers, and various contracted third parties

Launch Academy   Boston, MA
Jr. Full Stack Developer   *March 2017 - May 2017*

- ❖ Developed critical applicable programming skills for building full scale web applications
- ❖ Worked extensively with Ruby on Rails and React for coupling a RESTful API to an interactive and responsive frontend
- ❖ Learned the importance of Test-Driven Development with exposure to Rspec, Capybara, Jasmine, Enzyme, and Sinon
- ❖ In a collaborative team setting, utilized pair-programming, Agile methodologies, and Git for our version control system
- ❖ Mapped databases using ER diagrams and various UML visuals for modeling relationships
- ❖ Styled responsive webpages with CSS and Sass; followed design best practices such as mobile-first

EDUCATION

Georgetown University   Washington, D.C.
B.A. English, Minor in Philosophy   *May 2007*
