benedictdaly.herokuapp.com | linkedin.com/in/benedictdaly | github.com/benedictbutton

TECHNICAL SKILLS

Languages: Javascript, Ruby, HTML, CSS
Databases: PostgreSQL, MongoDB
Software/Tools: React, Redux, Nextjs, Rails, Node, Express, Git, Graphql, Material-UI, Tailwind, Jest, RSpec

PROJECTS

(Personal) Movies-Scene: www.*movies-scene.com* | github.com/benedictbutton/movie-app
- An interactive application for browsing, rating movies, and creating multiple playlists
- Rails API with Postgres persists associative data and React achieves a dynamic SPA architecture
- Relied on Redux for state management and on JSON Web Token for authentication and site security
- Provided a practice ground for using various API's and software utilities: React Router, React Hooks, Redux Saga, Redux Forms, lodash, Reselect, AWS Cloudfront

(Launch Academy) Cricket: *crickety.heroku.url.com* | github.com/benedictbutton/cricket

PROFESSIONAL EXPERIENCE

Cantina Consulting   Boston, MA
Engineer   *February 2020 - Present*
- Worked across multiple projects with a variety of technical stacks; necessitated quickly ramping up on working with different software tools and collaborating across different teams
- Refactored a client's application by restructuring React components for improved data flow; additionally leveraged React-Table for complex sorting, filtering, and searching of user data
- For a major client's website redesign, built the majority of React components, utilizing CSS modules for targeted styling
- One of two engineers tasked with implementation of a GraphQl headless CMS using GraphCMS; relied on Nextjs for static generation and SSR of pages
- Performed an accessibility audit of a client's website for WGAC 2.1 compliance; drafted a report with best practices, informational resources, and recommendations for targeted fixes

Resilient Coders   Boston, MA
Volunteer   *July 2019 – July 2020*
- Assist students with understanding programming concepts and best practices, complete assigned coding exercises, and work on their individual projects

Symetra Life Insurance Co   Waltham, MA
Document Review; Contract   *November 2017 – August 2018*
- Coordinated document procurement between medical underwriters, group underwriters, case managers, and various contracted third parties

Launch Academy   Boston, MA
Jr. Full Stack Developer   *March 2017 - May 2017*
- Developed critical, applicable programming skills for building full scale web applications
- Worked extensively with Ruby on Rails and React for coupling a RESTful API to an interactive and responsive frontend
- Learned the importance of Test-Driven Development with exposure to Rspec, Capybara, Jasmine, Enzyme, and Sinon
- In a collaborative team setting, utilized pair-programming, Agile methodologies, and Git for our version control system
- Mapped databases using ER diagrams and various UML visuals for modeling relationships
- Styled responsive webpages with CSS and Sass; followed design best practices such as mobile-first

EDUCATION

Georgetown University   Washington, D.C.
B.A. English, Minor in Philosophy   *May 2007*
