BENEDICT DALY

781.801.6384 | benedictdaly@outlook.com | 12 Wildwood Cir, Wellesley, MA 02482
linkedin.com/in/benedictdaly | github.com/benedictbutton

TECHNICAL SKILLS
Languages: Ruby, HTML, CSS, JavaScript
Databases: SQL, PostgreSQL
Software/Tools: React.js, Redux, Rails, Node.js, GitHub, Material-UI, React Router, Enzyme, RSpec, Capybara

PROJECTS
(Personal) Movies Scene: *movies-scene.herokuapp.com* | github.com/benedictbutton/movie-app
- An application for cataloging a user's ratings of movies seen
- Persists associative data with Rails API and achieves dynamic page responsiveness with React.js
- Relies on Redux for state management and on JSON web token authentication for security

(Launch Academy) Cricket: *crickety.heroku.url.com* | github.com/benedictbutton/cricket
(Launch Academy) TV a la Cartes: *tv-reviews.herokuapp.com/* github.com/StevenSavini/TV-Reviews
- A website for searching TV shows, saving favorites, and making ratings and reviews
- Developed as a team of four utilizing Agile methodologies, pair programming, and Git workflow
- Database schema visualization achieved with ER diagrams, and overall project design plotted with storyboards on Trello
- Built out backend on Rails, relying on BDD with Rspec/Capybara testing frameworks
- Configured authentication and authorization controls with Devise
- Seeded database by integrating an external API
- Employed React components on front end to enhance web page responsiveness

PROFESSIONAL EXPERIENCE
Symetra Life Insurance Co   Waltham, MA
Document Review; Contract   *November 2017 – August 2018*
- Coordinated document procurement between medical underwriters, group underwriters, case managers, and various contracted third parties

Launch Academy   Boston, MA
Jr. Full Stack Developer   *March 2017 - May 2017*
- Developed critical, applicable programming skills in building full scale web applications
- Worked extensively with Ruby on Rails and Reactjs in coupling a RESTful API with an interactive and responsive frontend
- Learned the importance of Test Driven Development with exposure to Rspec, Capybara, Jasmine, Enzyme, and Sinon
- In a collaborative team setting, utilized pair-programming, Agile methodologies, and Git for our version control system
- Mapped databases using ER diagrams and various UML visuals for modeling relationships
- Styled responsive webpages with CSS and Sass, leveraging Foundation's rich library of UI components and following design best practices such as mobile-first

Bank of America   Boston, MA
Sales & Service Specialist   *March 2010 - April 2016*
- Resolved account service issues for clients, ensuring follow through on commitments to outstanding problems
- Main contact at branch to the project team piloting the automation of banking centers company wide. Coordinated on exposed policy issues and customer concerns related to the new technology
- Coordinated referral of client needs to various consumer and small banking specialists
- Assisted international clients by offering guidance on navigating issues specific to the United States financial system

EDUCATION
Georgetown University   Washington, D.C.
B.A. English, Minor in Philosophy   *May 2007*
